or call: 805.379.4777

---

Meeting the needs of individuals diagnosed with prostate cancer and their families, CSC offers two groups, an evening group twice a month for diagnosed individuals (Prostate Cancer Support Group), and a monthly group also open to loved ones (Prostate Cancer Networking Group). These groups are an excellent opportunity to exchange information about treatment options and to share the unique challenges of dealing with prostate cancer.

An orientation attendance and a brief preparation interview are required before attending.

These groups are facilitated by Kevin Axelrad, PhD, and Phil Dipaola, LMFT, long-time CSCVSB group facilitators. As with all services provided by CSCVSB, they are offered free of charge.
