3/23/25 (Sun) 9am-12pm

Morning of Mindfulness (In-Person)

NO COST TO PEOPLE IMPACTED BY CANCER

Welcome to our Mindfulness-based Cancer Recovery Support Group! This group provides a safe space where participants can learn a variety of mindfulness-based stress coping tools and engage in reflection discussions. Inspired by Kabat-Zinn's Mindfulness-Based Stress Reduction program, we offer a structured yet flexible approach to healing and cancer recovery.

To fully immerse yourself in the transformative power of mindfulness, we encourage attendance at all eight sessions and a half-day silent meditation session. This group is limited to 12 participants. Pre-Registration is required.

This group is facilitated by Marty Nason, MSN, an advanced psychiatric nurse, and cofounder of CSCVSB, along with Kayo Matsumoto, MS, LMFT, a licensed Marriage and Family Therapist, who are both experienced mental health professionals dedicated to supporting the well-being of people impacted by cancer.
