

## In-Person & Zoom Workshop

# Understanding Prostate Cancer

### EARLY DETECTION, PREVENTION, & TREATMENT OF PROSTATE CANCER

Prostate cancer is the second most common type of cancer among American men, second only to skin cancer. In the United States, more than 3.3 million men are living with or have had prostate cancer, and more than 313,780 men are diagnosed with the disease each year. Join us during National Cancer Prevention Month for an informative presentation covering prostate cancer, including prevention, screening, and treatment options.  
Light refreshments will be provided.

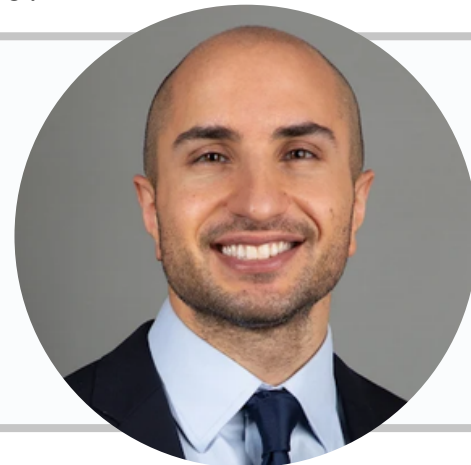

#### **DATE & TIME:**

**THURSDAY, FEBRUARY 12, 2026  
@ 12:00 PM-1:30PM**

#### **PLACE:**

**4195 E. THOUSAND OAKS BLVD. SUITE  
#107, WESTLAKE VILLAGE, CA 91362  
AND ONLINE VIA ZOOM**

## **Desiree Sanchez, MD & Behdod Katebian, MD**

*Adventist Health Urology - Simi Valley*

Dr. Sanchez cares for patients with conditions and diseases of the male and female urinary tract and male reproductive system. She provides a full range of treatment options, including today's most advanced minimally invasive and robotic surgeries.

Dr. Katebian cares for patients with a wide range of urologic conditions and diseases. He performs both minimally invasive and robotic surgery, allowing patients to return home more quickly with less pain and scarring than traditional open surgeries.
